

# THINKSULIN APP

## Inpatient management of diabetes mellitus

As part of the Leading Better Value Care program, the ACI and NSW Diabetes Taskforce have developed Thinksulin, a clinical decision support app that supports junior medical officers (JMOs) to deliver best practice insulin management.

### What is it?

Thinksulin point of care app that will provide information and decision support on blood glucose level targets, hypoglycaemia management, blood glucose monitoring, basal-bolus insulin regimen calculations, charting and dose review.

### Who is it for?

The target audience of Thinksulin is JMOs and nursing staff (without specialist skills/knowledge in diabetes management), however it can be used by any clinician responsible for the prescription and administration of insulin.

### How can you access it?

Thinksulin is available to download for free in Google Play (for Android users) and in App Store (for Apple users).

Scan the QR code to find out more.
